WORK EXPERIENCE

loanDepot, LLC / Irvine, California   **January 2016 - Present**
Senior UI/UX Designer
- Leading the primary design for an internal point of sale web application used by over 1,500 mortgage loan officers
- Creating a unified Design System across both enterprise and consumer products
- Facilitating design collaboration using Google Design Sprint principles
- Delivering and presenting mockups and rapid prototypes to stakeholders under short time limits in a fast-paced environment

Impact Production LA / Redondo Beach, California   **April 2015 - December 2015**
Senior Web Engineer & UX Designer
- Prototyped intial wireframes, designing the UI and developing the front-end and database of an online event booking system application for one of our biggest clients, Hilton Hotels & Resorts®
- Translated flat compositions from design team into fully-developed websites from scratch and/or using WordPress's CMS foundation and backend system
- Designed and coordinated rapid email blasts and campaigns

Artletic, LLC / Denver, Colorado   **March 2014 - April 2015**
UI/UX Designer & Front-End Developer
- Redesigned the brand, identity and front-end development of an existing audit management software app using HTML, CSS, Javascript, AngularJS, and Bootstrap for our biggest client, ACL
- Designed and developed custom CMS for a mobile application using HTML, CSS, PHP, and MySQL
- Wrote User Experience (UX) and SEO analyses as a service for the websites of interested startups

SoftMirage, Inc. / Irvine, California   **December 2011 - March 2014**
Web Developer & Designer
- Applied modern UX interface design and usability strategies in design and development for multiple touch screen kiosk systems for Irvine Company® Office Properties
- Provided front and back-end web production to both small and large-scale websites, while abiding by the current web standards and using standards-compliant CSS3 and HTML5
- Created fully customized websites using open source frameworks and content management systems such as CakePHP, WordPress, and Croogo
- Promoted mobile and tablet adaptation of websites using CSS3 media queries, responsive design

EDUCATION

Art Institute of California - Orange County / Santa Ana, California   **December 2011**
Bachelor of Science in Web Design & Interactive Media

LIFE

I love both design and development and seeing my projects come to life as I design them. As a UX principle, I believe that having just enough is better than trying to have all the things.

Off the computer, I enjoy camping, eating good sushi, and frequenting Disneyland. I love traveling and I find joy in meeting new people and immersing myself in different cultures (especially with food).

I currently live in the suburbs of Orange County, accompanied by my 140-lb. White Shepherd, Tiger.
